

## Partner Park Treatment Follow Up Monitoring

NRMEPMT

Park:

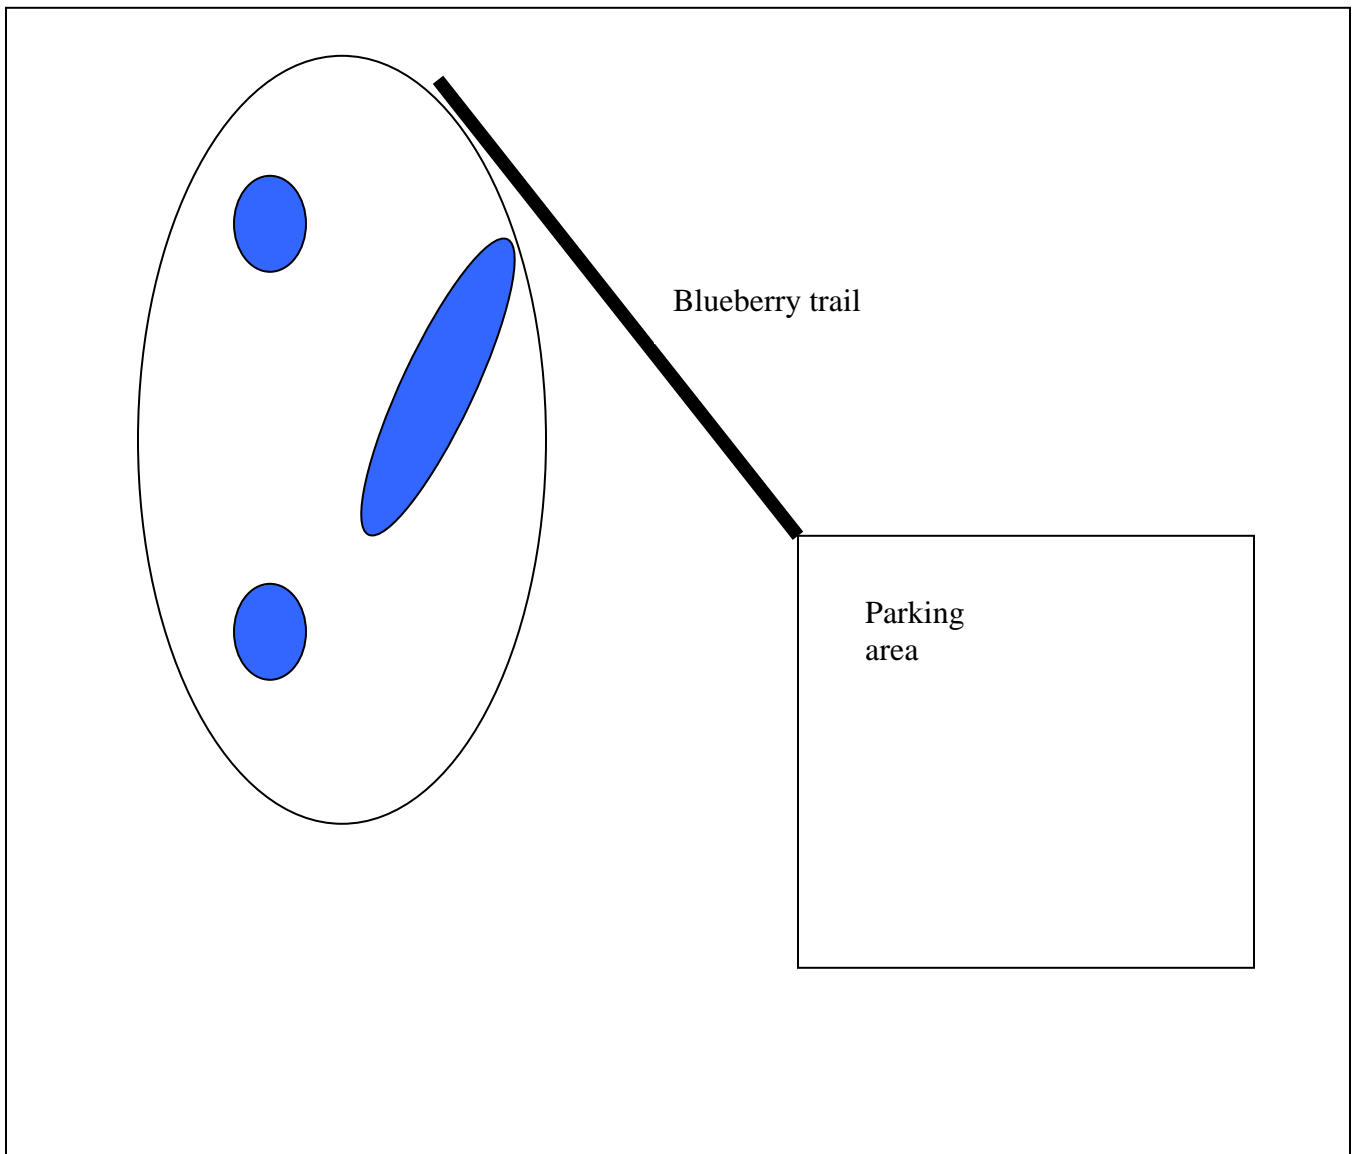

Location ID:

Infestation ID:

Plant Species:

Please mark on diagram the location(s) where treatment monitoring occurred. Shaded area indicates treatment polygon. (below is an example of map we would attach).

If you are able, please take a digital picture(s) of the site and send it along with the follow up monitoring datasheet and this map with your observations.

Partner Park Treatment Follow Up Monitoring

<b>NRMEPMT</b>
<b>Park:</b>
<b>Infestation ID:</b>
<b>Date of treatment:</b>

**Plant Species:**

**Name:**

**Date of monitoring:**

**In the area treated what type of control was obtained by treatment**

- \_\_\_\_\_ 0
- \_\_\_\_\_ trace (damage but no mortality)
- \_\_\_\_\_ 1-25
- \_\_\_\_\_ 26-50
- \_\_\_\_\_ 51-75
- \_\_\_\_\_ 76-100
- \_\_\_\_\_ total

**If kill was not 100% what is reason for existing vegetation**

- \_\_\_\_\_ Cut stump resprout
- \_\_\_\_\_ New seedlings/juveniles emerged
- \_\_\_\_\_ Missed target individuals
- \_\_\_\_\_ Rhizome resprout
- \_\_\_\_\_ Target plants damaged but not killed

**Describe the remaining population**

- \_\_\_\_\_ Clumped
- \_\_\_\_\_ Continuous cover
- \_\_\_\_\_ Gradient
- \_\_\_\_\_ Isolated individual
- \_\_\_\_\_ Isolated patch
- \_\_\_\_\_ Scattered

**Is there evidence of spread of this species around the treated population?**

- \_\_\_\_\_ Yes
- \_\_\_\_\_ No
- \_\_\_\_\_ Didn't look

**Are adult fruiting plants present?**

- \_\_\_\_\_ Yes
- \_\_\_\_\_ No
- \_\_\_\_\_ Didn't look

## Partner Park Treatment Follow Up Monitoring

### **Instructions For Use Of Treatment Follow Up Monitoring Datasheets:**

Monitoring can be conducted by either by EPMT or by the Partner Parks. If conducted by the Partner Park, the Crew Leader will provide the partner park contact with the background map/information on areas that have been treated and/or need to be monitored. Personnel at the Partner Parks will fill in the datasheet, keep a copy for their records and mail, email or fax a copy along with any digital photos of the site to the appropriate Crew Leader. Once a datasheet is received the Crew Leader will review and enter the data into APCAM within 2 weeks of receipt. If necessary any follow up work will be scheduled and conducted in a timely manner.
